October 1, 2026

Dear Valued Portal User,

The West Virginia Department of Transportation Division of Highways is pleased to announce that your online permit services are moving to West Virginia's One Stop Shop Permitting Portal.

Beginning October 1, 2026, you will be able to apply for, renew and manage your WVDOH Permits through the secure online portal. As part of West Virginia's Speed to Build initiative, this new system is designed to make the process faster, more convenient, and more efficient for West Virginia businesses and residents.

The new portal will allow you to:

- Complete applications and renewals online.
- Upload supporting documents electronically.
- Check application status.
- Receive updates and communications electronically.
- Access your permitting information through a secure online account.

Fee Structure & Processing Information

Beginning October 1, 2026, WVDOH will collect permit fees for an expedited review option available for projects with accelerated timelines. Requests are evaluated on a case-by-case basis depending on permit complexity and resource availability, with estimated costs and projected timelines provided for review and approval prior to proceeding.

Permit fees do not apply to public corporations and political subdivisions of the State of West Virginia (as defined in Section 16-13A-3).

Standard workflows and processing requirements for WVDOH permits remain unchanged within the One-Stop-Shop Portal.

What you need to do

Beginning on October 1, 2026, visit www.SpeedToBuild.wv.gov to create your account and complete your next permit application.

While the look and feel might be new, please rest assured that the way your West Virginia Division of Highways permits are processed will stay exactly the same. Your familiar workflows and requirements aren't changing; we're just giving them a better home alongside the rest of the state's permits.

After creating an account in the One-Stop-Shop Permitting Portal (Speed to Build), you can access it via the current DOT Permit Portal login page by selecting, Log in Using Your One Stop Account. Please use the same email address for both accounts so they can share information.

For those who do not have access to the internet, or are part of a community that abstains from digital media and online communication, we do provide the opportunity to submit permits in paper form. To do this, please visit your local West Virginia Department of Transportation Division of Highways District Office.

This transition is part of West Virginia's statewide effort to improve government services by making permitting faster, more secure, and easier to use.

If you have questions about hauling permits or general permit questions, please email dotpermitting@wv.gov. For all other permit inquiries, contact your local West Virginia Department of Transportation Division of Highways District Office using the numbers listed below.

Thank you for your continued partnership.

Sincerely,

West Virginia Department of Transportation (WVDOT) Division of Highways
